Présentation of the members

Each members quickly introduced themselves.

Introduction of the articles

Dr. LEZOCHE will send us, two articles. The articles present ontology and knowledge graph. Before starting, we will read those articles and present them for the next time. The purpose is to explain what we did understand and to complete it.

Work organisation

- Meetings will be organized on Wednesday afternoon at the CRAN Lab
- A WhatsApp group is created to allow every members to discuss
- The main repository containing the code and every documents is on gitlab
- The language used is Python on the IDE pycharm and Visual Studio Code
- The ontology editor used is Protégé
- We will try our application with local data

Tasks

- Read the articles on the ontology and the knowledge graphs
- Synthesize the main points and write it on a support
- prepare a presentation to explain it

Next meeting : *January 26th 2022*
