

April 06th Meeting

Members	Time	Venue
Mariano FERREIRONE Hamza ABDOULHOUSSEN Killian CRESSANT Hadrien ROCHU	14h-18h	CRAN Lab

Agenda

1. Work at the lab
2. Informations

Work at the lab

During the work session, Hadrien made progress on the report and did research for the state of art. Killian and Hamza tried to look how to convert ontology constraints to knowledge graphs. They looked on the internet how to represent constraints on knowledge graphs and they focused on the constraints **some** to try to make an example.

Information

For the next two weeks, Hadrien, Killian and Hamza are in holidays. So they asked to do the meetings online on google teams, if possible.

For the leaf project, Mariano does not have access to the school leaf server and on the basic leaf, free user can only share their projects to one person.

Tasks

- Finish the example
- Try to extract a constraint
- Continue the article

Next meeting : *April 13th 2022*
