

January 28th Meeting

The meeting was planned on the January 26th but has been postponed because of the Neuroscience and Digital week.

Members	Time	Venue
Dr. Mario LEZOCHE Mariano FERREIRONE Hamza ABDOULHOUSSEN Killian CRESSANT Hadrien ROCHU	14h-16h30	CRAN Lab

progress

- The team read the articles about ontology and knowledge graphs
- They summarized what they understood
- The WhatsApp group was created
- The github repository was created
[here is the link]

Agenda

1. presentation of the articles
2. introduction to protégé
3. Start to prepare an ontology about chess

presentation of the articles

The team has presented the main points of the article they understood. Then, they asked questions about things that was still unclear. To develop, they answered to questions about differences between ontology and knowledge graph and more specifics part of them.

introduction to protégé

The team downloaded and installed protégé and they saw the basics :

- create classes
- create subclasses
- add property assertions
- use reasoner (to deduct links and check for inconsistencies)

Start to prepare an ontology about chess

Hamza, Killian and Hadrien like to play chess. They will start to practice protégé and ontology concepts by creating an ontology based on their chess knowledge.

Tasks

- Finish the ontology on chess
- Take a look at the knowledge graphs conferences
