

May 11th Meeting

Members	Time	Venue
Mariano FERREIRONE Hamza ABDOULHOUSSEN Killian CRESSANT Hadrien ROCHU	14h-18h	Lab CRAN

Agenda

1. Correction of the main classes
2. Create the ontology from the `rdf` file
3. Advance on the article

Correction of the main classes

To get all classes, for the main classes, we had this triple :
("main_classe", "SubclassOf", "Thing")

Create the ontology from the `rdf` file

We advanced on the other script to convert the `rdf` file into `owl` ontology. The script get the classes, subclasses, individuals and properties. the output generated is an `owl` ontology and it is read by `protégé`

Advance on the article

On the article, we are adding element to define ontologies and knowledge graphs. We will add more details for the script and all the differents visualisations we get.

Tasks

- Focus on the article

Next meeting : May 12th 2022
