

April 27th Meeting

Members	Time	Venue
Mariano FERREIRONE Hamza ABDOULHOUSSEN Killian CRESSANT Hadrien ROCHU	14h30-17h	Google Meet Telecom Nancy

Agenda

1. Create an example of ontology with constraints
2. Advance on the article

Create an example of ontology with constraints

Killian and Hamza made an example of ontology with the constraints **some**. We took the example of the ontology **pizza** and we have created the ontology **pizza_some** by taking only the constraint **some**.

We have also made the ontology **Geography** from the articles, to test the script.

FIGURE 1 – Geography ontology

Advance on the article

Hadrien is progressing on the article and looked for the main structure of the article.

Tasks

- Try to extract a constraint
- Continue the article

Next meeting : May 02nd 2022
