April 20th Meeting

Members	Time	Venue
Hamza ABDOULHOUSSEN Killian CRESSANT Hadrien ROCHU	14h30-17h	Discord

Mariano could not come because he get some fever.

Agenda

1. Advance on the constraints
2. Advance on the script
3. Advance on the article

Advance on the constraints

Killian looked on articles for a way to describe logic description like `some`. With that description, we have to make an interpreter that can parse and understand the logic into the file.

Advance on the script

With an example of rdf triples find here, we created a template and we are using this template to write the triples extracted into an `rdf` file.

Advance on the article

Hadrien was summarizing the articles we have on the `ontology` and `the knowledge graph` for the state of art of our article

Tasks

— Finish the example
— Try to extract a constraint
— Continue the article

Next meeting : *April 27th 2022*
